EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Mark Nuell on 06 June 10, 2005.

In claim 8, line 2, "a variant of" was added after "comprising".

The reason for the amendment as discussed during the telephonic interview with Mr. Nuell on 06 June 10, 2005 is because the claimed tumor antigen does not comprises the recited sequences but comprises a tumor antigen with the recited amino acids substitutions in two positions in the recited sequences.

The following is an examiner's statement of reasons for allowance: The claims are allowed because the Office interprets that the limitation "an isolated tumor antigen peptide of 9-11 amino acids in length" controls the scope of the claims, not the transitional phrase "comprises".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MISOOK YU, Ph.D whose telephone number is 571-272-0839. The examiner can normally be reached on 8 A.M. to 5:30 P.M., every other Friday off.
